

Dear "[FNAME]",

With cryptocurrencies off to a blazing start in 2021, we take a look at the top trends in blockchain -- the technology that underpins cryptos -- over the next eleven months. The space has come a long way since the early days of Bitcoin, and 2021 is shaping up to be quite possibly the most important year for blockchain to date.

We anticipate that online sports betting will be another hot topic for 2021, as it starts to proliferate throughout the U.S. All but seven states have taken steps to legalize some form of online sports betting since the 2018 repeal of PASPA, and we explore what impact this development will have over the coming months.

Finally, as a PSA for any of our readers who don't subscribe to Lawyer Monthly (I'm sure there must be one or two!), you can access the online edition and read my recent article about on important legal considerations to make a great video game by clicking the image below:

I hope this month's issue of Gamma Law News and Insights finds you safe and well, and please feel free to drop me a line with any feedback, points for discussion, etc. at any time.

Best regards,

David B. Hoppe
